

Biodiversity at SES Water

We first launched our Biodiversity Action Plan in 2018 and have a range of work planned. However, we have already achieved a lot:

Land management at SES Water sites

Reduce mowing at sites to encourage wildflower

Wildflower seed sowing

Tree planting

Hedgerow improvements

Biodiversity training for staff

Deadwood piles created

River clearance works

Owl and Wildlife Tower built with local volunteers

Installation of owl & bird boxes

Habitat and species surveys – providing a baseline and giving us data to compare in the future

Hazel Dormouse

Badger

Butterfly & Pollinator Transects

Invasive species

Biodiversity Benchmark

In 2021 we achieved the Wildlife Trusts' Biodiversity Benchmark at our Elmer site, we have committed to achieving this benchmark at 3 sites by 2024.
